Professional Power Point AI Course: From Basic to Advanced for "Haldia Energy & Dhariwal Infrastructure"

This advanced PowerPoint training program was designed for professionals and business presenters who wanted to elevate their slide design, animation, and delivery skills with AI skills. Participants were taught advanced techniques to create visually compelling, interactive, and dynamic presentations that engaged audiences and enhanced communication effectiveness. By the end of this program, participants were able to design professional, visually appealing slides using advanced formatting and layout techniques.
